PERHAPS those advocates of silver ho had difficulty in "explaining" the rise in prices of farm products in the face of the fall of silver might utilize some of their arguments of last year about the influence of the "gold power." Everybody remembers that they insisted last year that the money power was responsible for the action of all foreign Nations which have adopted the gold standard in the past quarter of a century. It would be just as reasonable to now insist that the gold power is responsible for the crop failure and famine in India, the grasshoppers which are mowing down the crops of Argentina, the shortage in Australia, and the light grain crops of Russia. Probably horrible gold powers have conspired to wipe out the food crops of all parts of the world except the United States, in order to boom prices here and thus make the American farmer think that the prices of wheat and silver are not related. # Piano Playing Made Easy

### Norris & Hyde Pianos

instantly transpose any song to suit any voice. They are the only pianos which transpose a full chromatic octave. With them any player can just as easily play any piece in any or all other keys as in the original key, and any singer can sing any song in exactly that key in which the voice sounds best. Instrumentalists may play in any key easily for them.

This adds great value to these instruments, which are also superior in all other respects. They suit the most exacting critic, and are indorsed by prominent musicians everywhere. Any child can operate the Movable Key-board, and it cannot be gotten out of order. While pre-eminently instruments for the home, voice teachers, singers, churches, schools, and theasters, find them an indispensable convenience. Our Catalogue No. 63 zells at about them. Send for it free.

We are also Steinway Pianos. ERNEST URCHS & CO., 121 and 123 West Pourth St., CINCINNATI.
